Welcome,

Partex is a multigenerational Company with a rich tradition. From the very beginning, the owners built their brand based upon basic human values.

For over 70 years, countless Employees have found that good relationships, mutual trust, and reliable quality are what gives the Company and its people strength.

QUALITY: The highest quality and most-reliable products and services.

LONG-TERM: Long-term relationships with Employees and Trade Partners.

CLOSENESS: Loyal, trust-based relationships with Employees and Trade Partners.

All Partex branch teams from different parts of the world cooperating to create one reliable brand. Our differences enrich us, build bridges and open new doors.

Quality
Long-term
Closeness

ABOUT PARTEX

Partex UK headquarters

PARTEX MARKING SYSTEMS was founded in 1948 by Tore Lööf in Gullspång, Sweden. Since the beginning we have engaged in the production of complete marking systems and cable accessories.

Many of our clients know that Partex is a Swedish company and that we introduced the most popular one-character marker, the PA-marker. But you should know that our offer is much wider. This catalogue will be a useful guide to the world of marking systems and cable accessories.

It is worth mentioning that many of our products were established in response to specific requests from customers who had problems with identification. If you have a special requirement, do not hesitate to contact us as soon as possible.

WHY MARK?

Marking increases safety, reduces wasted time in manufacturing and production stoppages. Furthermore, marking simplifies maintenance and reduces costs for service, production loss, fault identification, repairs and exchange of electrical equipment.

Why Choose Partex? Partex offers a complete range of marking products. We have over 60 years' experience of development and manufacturing that has given us a unique expertise and knowledge in the field.

In order to ensure that our products have a high and consistent quality, they are subjected to numerous tests at the National Institute for Research and Testing in Sweden. Detailed research and stringent tests are carried out, such as the impact of mold, rust, fire, extreme temperatures, UV radiation and various chemicals.

Below is a list of tests.

TEST	METHOD
Flammability	according to UL 94
Low temperature	markers are kept at -30° C for 4 hours. Checking cracks, fractures and similar damage. In addition, the ease of assembly is checked.
High temperature	markers kept at a temperature of 70° C for 1 hour. If the material has passed the test, the test is repeated at a higher temperature.
Aging resistance	accelerated thermal aging, corresponding to the use of material through 30 years at 20° C. Checking cracks, fractures and similar damage. (Up to 50% reduction in elongation before fracture). In addition, the possibility of assembly is checked.
UV resistance	accelerated UV-test, corresponding to ISO 4892-2. Exposing the material to sunlight for a period that equals one year in southern Sweden. Checking for fading, changes in color and readability of the print.
Resistance to abrasion (text)	in accordance with Method 2172 Swedish National Testing and Research Institute (machine abrasive). Using a load of 75 g per millimeter.
Chemical resistance	mounted markers are immersed in the chemical agent at a temperature of 23°C - 2 C, left for 2 hours, and then checked for functionality, durability, color and clarity of printing. Chemicals used: synthetic diesel fuel, sulfuric acid (25%), cleaning agent (Berol 226, 10%), distilled water, sea water (5% NaCl), transformer oil (Nytro 10X) and Ethanol (95%).
Dielectric resistance	in accordance with IEC 93
Ozone resistance	the test samples are extended by 33% and exposed to ozone to 100 ± 5 pphm at 65° C to -2°C for 192 hours.

Certified to:
ISO 9001

+ MARKING METHODS

123
M1 SINGLE CHARACTER MARKERS

Consists of single character markers that can be combined with each other to give total marking flexibility.

123
M2 MULTI CHARACTER MARKERS

Allows you to order markers already printed with the complete information in accordance with your specification.

123
M3 ON-SITE

Allows you to produce your own markers on site with one of Partex marking machines.

+ PACKAGING

B = Black ink jet print
V = Hot stamped print
N = Neutral / Blank markers

7. Colour of profile

Colours according to the international colour code

8. Colour of print

Print colour according to the international colour code.
Some products can only be printed in black or white.

9. Type of characters

A-Z Letters
0-9 Numbers
Special characters such as: + - / earth sign etc.

INTERNATIONAL COLOUR CODE

We offer several types of printing. For example, single-character markers are hot stamped and multi-character markers are printed with ink or thermal transfer.

The colours of our markers are consistent with international colour code shown below.

0	black marker (RAL9011) white print	7	violet marker (RAL4006) white print
1	brown marker (RAL8015) white print	8	grey marker (RAL7005) black print
2	red marker (RAL3018) white print	9	white marker (RAL9010) black print
3	orange marker (RAL2004) black print		yellow-green marker black print
4	yellow marker (RAL1021) black print	+	red marker, white print
5	green marker (RAL6001) white print	-	blue marker, white print
6	blue marker (RAL5010) white print

SAVING. Customized multi-character marking increases efficiency. The more complex the job, the greater the potential time saving. Furthermore, there is no waste. Ordering the markers ready-sorted saves even more time.

SIMPLICITY. We have also made it easy to order M2 markers. Simply choose the method that suits you best. Anything from an emailed Excel list to direct ordering via the internet, using MarkOnLine. - order when, where and how you like. It could not be any simpler!

SAFETY. Using our M2 system ensures the highest quality and accuracy. A correct original specification guarantees a correct end result. This is because all the markers are printed in advance!

SELECTION. Our M2 system leaves you entirely free to adapt your marking to your needs. Product types, sizes, colours, materials, sorting methods, packaging – we understand our customers needs and can offer the widest possible selection of solutions.

ONLINE ORDERING. Design your own customised markers online with our easy to use website: <https://markonline.partex.co.uk>

SORTING AND PACKAGING OPTIONS FOR OUR CUSTOMIZED MULTI CHARACTER MARKERS

- MFS10** – The same type of markers sorted on a roll or in a bag.
- MFS20** – Various types of markers sorted in one bag. Sorted for example according to drawing, cabinet or cables.
- MFS30** – „Double Sorting“ eg the cabinet, inside cabinets - by individual cables. Markers can also be ordered on adhesive tape or a sheet.
- MFS40** – Markers mounted with cable ties and holders (PKH), sorted on a sheet or adhesive tape.

CUSTOMIZED MULTI CHARACTER MARKERS

NEW

+

INFORMATION

+ PCT is a real revolution in the world of marking!

- + It's the first open wire marker on the market, available on a reel, ready to print on thermal transfer printers!
- + Its continuous format allows fast printing, with a maximum speed of 400 pcs per minute!
- + PCT marker is available in four different sizes, designed to cover the most popular range of cable diameters (1.2 – 4.0 mm).
- + The marker was designed with special regard to the terminal block width! When mounted on the cables coming into the terminal blocks, the marker won't stick out.
- + A unique structure of the marker makes it really flexible and easy to mount even on bent cables.
- + Full packaging (reel with markers) fits inside dedicated Partex printer.

MK10-EDS2

MAIN FUNCTIONAL FEATURES

**Soft top material**

- + allows printing by thermal transfer printers
- + ensures excellent quality and legibility of the print
- + high wipe and scratch resistance

Rigid material of the legs

- + ensure a strong grip on the wire
- + enables fast snap installation onto already connected wires

**Special side punches**

- + make the marker more flexible
- + ensure strong grip even on bent cables

Sensor punch

- + enables stable printing process

**Project field:**

- + extra space to place more information, e.g. installation data
- + makes the installation process quick and easy
- + easy to remove with one quick action

ADDITIONAL FUNCTIONS OF THE PROJECT FIELD

Every PCT marker has an additional project field, apart from the main text area. The additional area comes with regular punches. The punches are necessary for the printer sensor to align the marker correctly. The project field can be easily removed at any time.

The project field can function as a holder. Once the markers are printed, you can pull out any marker without changing the order of other markers. Thanks to numerous Promark Creator features, the printer can automatically place additional text onto the project field:

- the same text as in the main text area
- project name/ marker group name/ number of the marker
- date / hour/ week number
- any other text

If a given description is too long for the main text area, you can print it onto the project field. Divided text can be either typed with a keyboard or imported using Promark Creator functions (e.g. from Excel, Access, Notepad etc.).

The project field can feature as a control function. If you need to check the cables after the marking process has been completed, Promark Creator enables that. You can add a control text (e.g. OK, CHECKED) on the project field. Once you connect and check all the wires, the project field can then be easily removed.

+ INFORMATION

- + Multi-character markers printed according to customer specifications.
- + All of information on one sleeve.
- + Quick installation with fewer markers.
- + No residue, no need of inventory.

INFORMATION

- + Oval profile to identify cables and wires.
- + Quick installation - all information included on one sleeve.
- + Designed for the most popular sizes of wires and cables.
- + Easy to print onto with thermal transfer printers from Partex.
- + PO-068 can be applied directly onto the POH or PKH carriers and then fastened to the cable with cable ties.

PROPERTIES

Temperature range

PO: -30°C to +60°C; POZ: -30°C to +90°C

Material

PO - PVC, POZ - ZEREX

INFORMATION

MG is a flame retardant, crosslinked polyolefin tubing. Specific developed to be used within aerospace, military, rail, industrial, energy marking, insulation, wire bundling and mechanical protection.

Primary applications include marking, insulation and protection of cables, harnesses and electronic components. Its flexibility enables fast mounting.

MG is printable for on site production with Partex MK10 or EOS marking machines. See separate product information.

- + Very flexible, high temperature and highly flame retardant polyolefin heat shrink tubing for insulation and identification marking.
- + UL224 and CSA compliant.
- + Flexible and fast mounting. Ideal for aerospace, military, rail, industrial and energy applications.
- + Reduced marking costs as marking can be done on site with Partex marking machines.

INFORMATION

HZ is a halogen free, flame retardant and low smoke crosslinked polyolefin tubing, ideal for use in enclosed spaces such as mass transit, marine and industrial installations.

Primary applications include marking, insulation and protection of cables, harnesses and electronic components. HZ is specifically developed to be used in rail, marine, aerospace, industrial marking, insulation, wire bundling and mechanical protection. Its flexibility enables fast mounting.

HZ is printable for on site production with Partex MK10 or EOS marking machines. See separate product information.

- + Zero halogen, flame retardant and low smoke polyolefin tubing for insulation and identification marking.
- + Ideal for applications where limited fire hazard and low smoke characteristics are required.
- + Reduced marking costs as marking can be done on site with Partex marking machines.

 INFORMATION

NF - Diesel Resistant Printable Heat Shrink Sleeves

Very flexible, high temperature rated, highly flame retardant, UV Stabilised heat shrinkable tubing (3:1 shrink ratio). Ideally suited for applications where resistance to organic fluids, common fuels, lubricants and solvents are required. Flexible polyolefin sleeves used for wire identification. Markers are supplied roll form in a flattened format on a backing which can also be printed to aid sorting.

- + Diesel Resistant
- + Flame Retardant
- + Self Extinguishing
- + Meets SNCF Spec. NF-F00-608
- + Easy Pick Application
- + Backing card perforated after every sleeve
- + Print performance to Military Specifications
- + RoHS and REACH Compliant

INFORMATION

EF - Extended Fire Resistant Printable Heat Shrink Sleeves

Flame retardant, zero halogen, low smoke, low toxicity radiation cross linked UV stabilised and printable polyolefin sleeves used for wire identification. Ideal for use where limited fire hazard properties are required. Developed for use in mass transit, and marine applications where human life is at risk. Meets London Underground Limited Standard 1-085.

- Flame Retardant
- Self Extinguishing
- Zero Halogen
- Easy Pick Application
- Backing card perforated after every sleeve
- Print performance to Military Specifications
- RoHS and REACH Compliant

SPECIFICATIONS

INFORMATION

ET - Extreme Temperature Printable Heat Shrink Sleeves

Very flexible, high temperature rated, highly flame retardant, heat shrinkable tubing (2:1 shrink ratio). Flexible polyvinylidene fluoride sleeves used for wire identification. Suitable for use in applications where extreme temperatures and harsh chemicals can be found.

- + Flame Retardant to UL224 VW-1
- + Self Extinguishing
- + Meets requirements of SAE-DTL-23053/18
- + Easy Pick Application
- + Backing card perforated after every sleeve
- + Print performance to Military Specifications
- + RoHS and REACH Compliant

+ INFORMATION

- + PA type sleeve with oval, transparent pocket for PFC and PP+ profile.
- + Specially designed pocket protects the label from damage and keeps it in place.
- + PFC or PP+ may be inserted both before or after application of the marker.
- + Four sizes with the same pocket size cover most cable diameters.
- + Help to reduce inventory and reduce cost of marking.
- + Also available in Halogen free material (PTZ+).

INFORMATION

- + The quickest, most cost-effective and easiest way to make cable labels.
- + Use your standard office laser printer. No extra equipment needed.
- + Incredibly strong ,non-tear, polyester material.
- + The marker is easily and quickly mounted, with cable ties, to any size of cable.
- + Partex Labels Creator software makes designing the labels incredibly straightforward.
- + Accurate, laser-cut, perforations make it easy to remove printed labels.
- + Option to vary start label position to maintain header so you can reuse part printed sheets

PROPERTIES

+ INFORMATION

- + Flat cable marker with pre-punched holes
- + Easy to mount on the cable with cable ties
- + Very durable and fast print with printer MK10-SQUIX or MK10-DH, up to 2000 markers per hour .
- + Also available pre-printed according to customer specifications.
- + Flexible material which neatly forms to the cable
- + Adjustable font size gives the ability to have up to 5 lines of text

+ SPECIFICATIONS

- + PPQ + is a flat profile with pre-punched holes. The profile is supplied on reels and have fixed lengths. PPQ+ can be printed on the MK-10 or EOS2 printers, or can be ordered pre-printed according to customer specifications.
- + Profile to be printed on the MK10-SQUIX or EOS2 printers is supplied on 20 meter reels containing between 300 and 500 markers.

+ PROPERTIES

INFORMATION

CMZ - Zero Halogen and Flame Retardant

The CMZ cable marker is extremely strong with high tear strength properties. They are zero halogen and UL94 V-0 rated. They will not break down in reaction to water, and are resistant to bacterial attacks. They are UV stable and suitable for use in harsh chemical environments.

- + Zero halogen
- + UV stable print quality
- + High tear strength
- + Print performance to military requirements
- + Flame retardant
- + High degree of mark permanence
- + RoHS and REACH Compliant Thermal printed

INFORMATION

CMD - Diesel Specification

The CMD cable marker is a flame retardant marker designed to survive exposure to diesel, organic fluids and oils for long periods at high temperatures, and are ideal for mass transit applications. They are UV stable and provide print adhesion to MIL Spec standards.

- + UV stable print quality
- + Diesel Resistant
- + Print Quality to MIL Spec Standards Thermal printed
- + Flame retardant
- + Meets UL 125C, 300V
- + RoHS and REACH Compliant

SPECIFICATIONS

Temperature range

Operating Temperature -55°C to +135°C

Material

Polyolefin

Print performance

Adherence: SAE-AS5942

Fluid resistance: MIL202 Method 215K

INFORMATION

CML - Extended Fire Specification

The CML cable maker is made from zero halogen, low toxicity, radiation cross-linked UV stabilised polyolefin. This material has been approved for LUL for use on mass transit applications. It features extended fire safety and low smoke properties.

- + Zero halogen
- + UV stable print quality
- + London Underground Approval
- + Print Quality to Mil. Spec Standards
- + Thermal printed
- + Flame retardant
- + Low Smoke
- + Self Extinguishing
- + RoHS and REACH Compliant

SPECIFICATIONS

INTRODUCTION

- + To complement our hugely successful Laser Engraving Service, Partex are able to offer high quality printed polypropylene labels at extremely competitive prices, produced in house at our Coleshill manufacturing facility.
- + In addition to the standard labels shown in the following pages, we are also able to produce bespoke labels to your design. We offer a very quick turnaround for both short and long runs of labels. There are no set-up charges.
- + We can offer either;
 - Our SL range of thermally printed labels with black text or symbols on a high visibility yellow background, this durable range of labels is ideal for warning and danger labels.
 - Our CL range of glossy white labels are printed using a state of the art Memjet printer which can reproduce full colour photo quality labels in a wide variety of sizes.
- + Both types of label are made from strong polypropylene material which will not tear or stretch out of shape when applied. They are backed with a strong permanent adhesive which will even adhere to irregular surfaces and is resistant to water, oil and many chemicals.

INFORMATION

- + A wide range of durable thermal or colour printed labels.
- + Easy to apply non-tear material.
- + Resistant to water, oil and chemicals.
- + Good adhesion to irregular surfaces.
- + Colour labels produced using latest MemJet technology.
- + In addition to our standard catalogue range we are able to produce special labels to suit customers requirements.

+

INFORMATION

- + Self-adhesive tape on a roll for thermal transfer overprinting.
- + Label backing paper is wider than the tape, making it easy to peel it off and ensuring quick application.
- + Vinyl labels are characterised by very high adhesion. They are the perfect solution for marking uneven, rough surfaces, curved or oval shapes.
- + Durable acrylic adhesive allows using the tape on many surfaces, including stainless steel and glass.
- + The labels are available in many sizes. Depending on the amount of information to be included on the label, the customer can select the appropriate height of the tape.
- + The most significant advantage and potential of the PLTC label is its continuous form, which enables to design and print labels of any length.
- + The range of MK10 thermal transfer printers allows you to print, then cut or perforate the label to the required length in one operation.
- + Excellent resistance to moisture, alcohols and oils.
- + The label is made of mass-dyed vinyl which guarantees resistance to UV radiation.
- + A universal label for general applications, both indoors and outdoors.

NEW

+

INFORMATION

- + Self-adhesive and self-laminating writable cable marking labels for hand writing.
- + The extra transparent part is wrapped around the cable and laminates the writing field and protects labeling against chemicals and wear.
- + Suitable for marking already connected cables and wires
- + Can easily be marked with ink pen, felt pen or ball-point pen.
- + Less waste and cost when smaller quantities are needed at any one moment.
- + Excellent stability towards alkyl alcohols and oil.
- + 10 sheets per book
- + Writing field: yellow or white

+

PROPERTIES

Service temperature range:
-40°C to +150°C

Marking
Hand writing

Material
MT310 transparent polyester

+ INFORMATION

- + Cassette for PA02- and PA1 sleeves.
- + Flexible aid for service and maintenance marking.
- + Pocket-sized.
- + Easy to refill from Partex standard range.
- + CAS is double-sided for right and left mounting.

+ ITEM DESCRIPTION

TYPE	CONTENTS	DIMENSIONS [mm]
CASS 600 B/W	Red Pocket Cassette containing 600 PA02 markers and one PUJ 4T Teflon coated applicator. Contains 50 of each marker 0,1,2 and 3, plus 25 of each 4-9 (incl), A,E,L,N,R,S,T,+,- and earth. The numbers, letters and symbols are black text on a white marker.	67 x 90 x 21
CASS 600 C/C	As above but the numbers are colour coded (International resistor colour coding).	67 x 90 x 21
CASS 500 B/W	Blue Pocket Cassette containing 500 PA1 markers and one PUJ 5T Teflon coated applicator. Contains 25 of each marker 0-9 (inclusive), A, E, L, N, R, S, T, +, -, and earth. The numbers, letters and symbols are black text on a white marker.	67 x 90 x 21
CASS 500 C/C	As above but the numbers are colour coded (International resistor colour coding).	67 x 90 x 21

+ APPLICATION

+ INFORMATION

- + The MD installation tool and MDH holder form a complete installation magazine for PA sleeves.
- + The holder is easily loaded with the MD installation tool.
- + Complete marking kit for marking on site.
- + Minimize installation time and maximize flexibility when working with combination marking.

+ ITEM DESCRIPTION

TYPE	CONTENTS	PACKAGING
MDH 20 B/W	Key ring dispenser complete with 20 wands each with 25 PA1 markers. Contains 25 of each marker 0-9 (inclusive), A, B, L, N, R, S, T, +, -, and earth. The numbers, letters and symbols are black text on a white marker.	1 pcs.
MDH 20 C/C	As above but the numbers are colour coded (International resistor colour coding).	1 pcs.
MDH 20E	Empty key ring dispenser (no wands)	1 pcs.
MD10	Nylon replacement wand. No markers attached.	1 pcs.
MD10 PA1	Nylon replacement wand complete with 25 PA1 markers. Please specify the number, letter or symbol you would like.	1 pcs.

+ APPLICATION

+ INFORMATION

- + Easy to use pocket sized dispenser with numbers or letters/symbols.
- + Contains 10 single-character adhesive tape rolls.
- + Complete marking kit for use on site.
- + Can be filled with any combination.

SRC-T CARDBOARD BOX FOR MARKER REELS

+ INFORMATION

- + Cardboard dispenser box for Partex compacta discs.
- + Ideal for storing a selection of Partex markers.
- + On-site combination marking at a glance and at your fingertips.

+ DIMENSIONS

SRC-T can hold 12 reels of PA02, 10 reels of PA1, 7 reels PA2, 5 reels PK+

TYPE	LENGTH (L mm)	WIDTH (W mm)	HEIGHT (H mm)	COMPARTMENTS
SRC-T	130	80	130	1

INFORMATION

- + Robust steel plate storage box for Partex compacta discs
- + Detachable upper tray for cable accessories.
- + Flexible carrying handle.
- + Holes for different suspension arrangements.
- + An excellent accessory which simplifies marking work.

PROPERTIES AND DIMENSIONS

SRP can hold 14 disks PA-2 or 11 disks PK+

TYPE	LENGTH (mm)	WIDTH (mm)	HEIGHT (mm)	COMPARTMENTS
SRP	160	160	163	6 + place for discs

+ INFORMATION

- + Flexible spiral tube for fitting cables, conductors, tubes, wire bundles etc.
- + Excellent protection against mechanical wear.
- + Permits flexible connection between cabinet and door mounted units.
- + Also available in halogen free version (SPZ)
- + Snap-on fastener for holding tube into mounting plate holes.

+ PROPERTIES

Temperature range
-30°C to +60°C

Material
PVC

Standard colour
grey, black

Fixing
snap-in fastener of spiral tube in holed mounting plates.

SST6316	stainless steel cable tie	680 x 4.6	200	100 pcs	445

+ INFORMATION

- + Cable ties made from stainless steel AISI 316, coated with black or red polyester.
- + A very strong ball lock.
- + Quick and safe installation in a variety of applications.
- + The outer layer of polyester and gently rounded edges protect the cable from damage.
- + Excellent resistance to acids, salt, chemicals, and high temperatures.

+ SIZES AND PACKAGING

SSTC6316	coated stainless steel cable ties	680 x 4.6	200	100 pcs	445

+ INFORMATION

- + The latest model our very popular and reliable printer of markers for cables, wires, connectors and electrical components.
- + It feeds, prints (at a max. speed of 40 mm/s) and cuts profiles to size.
- + Selecting the Partex profile in the product index menu will automatically set the text position on the marker and the appropriate cutting depth. Further indexes have been introduced into the device menu.
- + The printer is controlled using the Promark Creator software. It now also offers the ability to control the printer and start marker production using the Promark Creator GO app.
- + Easy to use, ideal for marking of electrical installations and components of switchgear and automation cabinets.
- + The new design of the printer enables the use of batteries, making the printer even more mobile and makes the marking process independent of the available infrastructure.
- + Printer menus are available in 10 languages: English, Polish, German, French, Swedish, Spanish, Portuguese, Italian, Czech and Cyrillic.

+ PROPERTIES

Temperature range

Operating temperature: 15°C to 32.5°C
With the optional profile preheater: from 5°C
Storage temperature: 5°C to 35°C
Recommended profile temperature: 20°C

Thermal transfer printing

300 dpi resolution

Printing speed

18.5 mm/s – Low mode
25 mm/s – Moderate mode
40 mm/s – High mode

Text character height

1.3, 2, 2.6, 3, 4 or 6 mm (wide or narrow)

Max. legend text lines

3 lines for profiles and self-adhesive tapes

PC connectivity

Yes. Promark Creator + USB cable
Bluetooth

Internal storage

250,000 chars max

PC-downloadable character count

Unlimited with Promark Creator

Interfaces

USB 2.0 Full-Speed; Bluetooth

Power supply

Power adapter, 100~240 V AC (50~60 Hz), 0.74 A, Input power: 25 W.
CE-certified, UKCA and UKNI. Optional 6 dedicated, rechargeable AA-size batteries, 1900mAh each (not included).

Dimensions & weight

(L x W x H): 272 x 318 x 97 mm, Weight: 2,7 kg

+ KIT CONTENTS

- + PROMARK T2000 marker printer
- + power adapter
- + power cord
- + USB cable
- + starter 40 m black ribbon
- + profile guide
- + blade
- + Promark Creator software (1-year subscription)
- + carrying case

SPECIFICATION

- The new ProMark T-2000 printer is an indispensable working tool for installation technicians and manufacturers of switchgear and automation cabinets. Low weight, compact design and built-in internal memory also enable field work. The library of electrical symbols contains the following special characters: $\boxplus, \boxminus, \boxtimes, \boxdiv, \triangle, \square, \ominus, \otimes, \Delta, \geq, \leq, \downarrow, \uparrow, \rightarrow, \leftarrow, \neq, ^\circ, ^2, \textcircled{R}, \triangleleft, \textcircled{C}$. The new model also offers the diacritic signs of Czech and Turkish languages.
- The indexes of markers printed by the T-2000 printer are entered into the printer menu, making it easy to select the right material and size. Once the type of marker is selected, the T-2000 printer automatically sets the text position and adjusts the cut depth.
- The comfortable, backlit, high-resolution screen and the simple QWERTY keyboard enable new marks to be introduced quickly. The clear interface makes printer operation extremely easy. Advanced projects can be sent to the T-2000 from the latest version of our dedicated Promark Creator software.
- The new driver enables the so-called distributed printing. Each of the printers may simultaneously print different content, using a different profile.

PRINTABLE MARKER

- PO profiles, diameter 1.3 – 8 mm
- POZ halogen-free profiles, diameter 1.3 – 7 mm
- PHZ round halogen-free heat-shrink sleeves, diameter 2.4 – 6.4 mm before shrinking
- PHZF lay-flat halogen-free heat-shrink sleeves, diameter 2.4 – 6.4 mm before shrinking
- PP+ 4.6 or 9.0 mm high profile inserted into PT+/PTC/PTZ and PM, PTM & PS markers
- PP+ 6.3, 10.0 or 11.0 mm high profile compatible with Phoenix Contact, Entrelec (TE Connectivity) and Wago (TopJobs) connectors
- PPA+ 9.0 mm high, rigid PVC, self-adhesive backed
- PO-068 - marker profile for cables with PKH or POH holders (halogen-free PKZ20)
- PO-06Q and PO-068Q - perforated profiles, 10 mm hole spacing
- T2000-PWL self-laminating marking label for cables and wires
- T2000-PL self-adhesive tape, 6 mm, 9 mm or 12 mm wide, available in dispenser cartridges installed in the marker printer

SPECIFICATION

- + MK10-SQUIX is a modern thermal transfer printer with a high production speed (up to 300mm/sec).
- + MK10-SQUIX can be connected to your computer with a USB cable or WI-Fi module and controlled by Partex software.
- + The profiles are introduced to the printer from outside or unrolled from rolls and discs placed inside the device, then they are printed and perforated to the specified length selected by the user.
- + Numerous features, the touch screen, and broad printer head with 300 dpi resolution make that this is an excellent device for industrial applications.

PROFILES TO PRINT

- + PO and POZ profiles with diameters of 1.3 - 8.0mm (POZ is the halogen-free version).
- + PHZF - Flat, halogen-free, heat shrinkable tubes with diameters 2.4 - 38.0mm before shrinking.
- + PP+ profile - Height of 4.6 and 9.0mm compatible with profiles: PT+/PTC/PTZ and PM, PTM, PS.
- + PP+ profile - Height of 6.3, 10.0 and 11.0mm compatible with Wago connectors (TopJobs), Phoenix Contact, Etrelec.
- + PPA+ - Self-adhesive profile.

+ INFORMATION

Partex offer a wide range of thermal transfer ribbons where each ribbon has been specially formulated to provide the highest standard of print quality and adherence when used with our range of printers

+ PROPERTIES

SERIES 2020 - THERMAL TRANSFER RIBBON

Offers superior resistance to solvents, including Skydrol, Kilfrost, IPA and aircraft fuel. Offers superior scratch resistance.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-BK2020-40	black	40 mm	300 m	1
MK10-RB-BK2020-80	black	80 mm	300 m	1
MK10-RB-BK2020-100	black	100 mm	300 m	1

Temperature
5°C to 35°C (41°F to 95°F)

Humidity
10% - 85%

Shelf Life
36 months at 20°C and 50% Rh
Avoid direct sunlight

SERIES 510 - THERMAL TRANSFER RIBBON

Offers superior resistance to solvents, Kerosene, IPA, Brake Fluid, Gasoline and Water. Offers superior scratch resistance.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-BK510-40	black	40 mm	300 m	1
MK10-RW-BK510-40	white	40 mm	300 m	1
MK10-RB-BK510-83	black	83 mm	300 m	1
MK10-RB-BK510-110	black	110 mm	300 m	1
MK10-RW-BK510-110	white	110 mm	300 m	1

Temperature

5°C to 35°C (41°F to 95°F)

Humidity

10% - 85%

Shelf Life

24 months at 20°C and 50% Rh

Avoid direct sunlight

SERIES DR - THERMAL TRANSFER RIBBON

It is a high-performance thermo-transfer ink ribbon. Ideal for printing of logos, bar codes, text and various characters. The ribbon provides an excellent chemical and scratch resistance print result and guarantees high continuous printability also for serial production. Excellent print results. Excellent scratch and solvent resistance. High density printing

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-40300-DR	black	110 mm	300 m	1

Temperature

5°C to 35°C (41°F to 95°F)

Humidity

45% - 85%

Shelf Life

6 months at 20°C and 50% Rh

Avoid direct sunlight

SERIES 2300 - THERMAL TRANSFER RIBBON

General purpose wax ribbon. Suitable for printing on uncoated and coated paper labels and tags. Excellent print quality when printing normal or rotated barcodes.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-2300	black	110 mm	300 m	1

Temperature

5°C to 35°C (41°F to 95°F)

Humidity

20% - 80%

Shelf Life

1 year duration when stored at 5°C 35°C and 30% - 85% Rh

SERIES 3200 - THERMAL TRANSFER RIBBON

PREMIUM WAX/RESIN. Extremely versatile, suitable for a wide variety of materials. Can be used on both paper and synthetics, reducing the need to stock multiple ribbons. Good smear and scratch resistance. Resistant to many everyday chemicals.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-3200-80	black	80 mm	450 m	1
MK10-RB-3200-110	black	110 mm	450 m	1

Temperature

5°C to 35°C (41°F to 95°F)

Humidity

30% - 85%

Shelf Life

1 year duration when stored at 5°C 35°C and 30% - 85% Rh

SERIES 5095 - THERMAL TRANSFER RIBBON

High-performance resin ribbon for use on matte and gloss synthetics. Provides excellent print quality, even with small fonts, graphics and rotated barcodes. Excellent chemical resistance and performance in most harsh environments. Excellent temperature resistance, and smear and scratch resistance on both matte and gloss synthetics.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RW-5095-80	white	80 mm	300 m	1
MK10-RB-5095-83	black	83 mm	450 m	1

Temperature

-5°C to 40°C (23°F to 104°F)

Humidity

20% - 85%

Shelf Life

1 year duration when stored at -5°C 40°C and 20% - 85% Rh

SERIES FTI-M - THERMAL TRANSFER RIBBON

Offers good resistance to UV light. Offers good smear resistance at temperatures up to 50°C.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-BKFTIM-110	black	110 mm	300 m	1

Temperature

5°C to 35°C (41°F to 95°F)

Humidity

10% - 50%

Shelf Life

48 months at 35°C and 50% Rh

Keep away from direct sunlight, high temperature and humidity.

SERIES HT - THERMAL TRANSFER RIBBON

Offers superior resistance to high temperatures. Offers superior scratch resistance.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-BKHT-70	black	70 mm	300 m	1

Temperature

5°C to 225°C (41°F to 435°F)

Humidity

10% - 50%

Shelf Life

36 months at 35°C and 50% Rh

Keep away from direct sunlight, high temperature and humidity.

SERIES PX6 - THERMAL TRANSFER RIBBON

The PX6 is a premium resin formula that offers sharp printing which is ideal for bar code, fine lines and small characters. The fine line printing ability is complimented by outstanding abrasion resistance, excellent chemical and heat resistance and image durability for most demanding, harsh environment applications.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-PX6-25	black	25 mm	300 m	1
MK10-RB-PX6-55	black	55 mm	300 m	1

Service temperature range

-40°C to 150°C

Minimum Application temperature

10°C

Storage Conditions:**Temperature**

5°C to 35°C (41°F to 95°F)

Humidity

45% - 60%

Shelf Life

Two years

Keep away from direct sunlight, high temperature and humidity.

SERIES PR8 - THERMAL TRANSFER RIBBON

PR8 is a high performance resin ribbon designed for the most demanding applications regarding resistance to mechanical aggressions and/or temperature and/or solvents. Excellent resistance to solvents and to high temperature, smudge and scratch.

Excellent printing quality. The characteristics of PR8 answer the requirements of the following application fields:

- PHARMACEUTICAL, COSMETICS, HEALTHCARE
- FOOD CONTACT, LIVESTOCK,
- OUTDOOR APPLICATIONS CONVEYOR
- AUTOMOTIVE.

INDEX	PRINT COLOUR	WIDTH	LENGTH	PACK QTY
MK10-RB-PR8-25	black	25 mm	360 m	1
MK10-RB-PR8-55	black	55 mm	360 m	1
MK10-RB-PR8-110	black	110 mm	360 m	1

Temperature

85°C (185°F)

Storage Conditions:**Temperature**

5°C to 35°C (41°F to 95°F)

Humidity

20% - 80%

Shelf Life

One year

+ INFORMATION

- + Cost effective printing solution for Partex marker cards system.
- + Single sided printer for larger production volumes.
- + Prints onto Partex PFC-cards.
- + Connected to a PC and controlled by Partex WinSign software .

+ PROPERTIES

Temperature range:

Operating temperature: +15°C to +30°C

Storage temperature: -5°C to +70°C

Operating humidity: 20% to 65% non-condensing

Storage humidity: 20% to 70% non-condensing

To obtain the best printing result, the temperature of the profile shouldn't be lower than +20°C

Thermal transfer printing

300 dpi print resolution

PC connection

USB (1.0, 1.1, 2.0, 3.0) and Partex WinSign software

Dimensions

247x205x381mm (HxWxD)

Printing speed

1000 cards/hour monochrome

+ INFORMATION

- + Promark Creator is an excellent tool for the design and production management of markers
- + An intuitive program that allows you to flawlessly select markers with the proper parameters.
- + It enables the user to design even the most complex and elaborate description;
- + An advanced expression editor for the imported data is provided for this purpose.
- + Indispensable for the designers.
- + Extremely helpful both for users of the PROMARK family of printers and those who prefer to order ready printed and sorted markers direct to site.

+ SYSTEM REQUIREMENTS

Operating system

Windows 7 or newer

CPU

Pentium 2GHz

RAM

2GB

Software

.NET Framework 4.6.2 or newer

Resolution

recommended 1366x768 or greater

+ TYPES

THE PROGRAM HAS TWO VERSIONS:

- + **DESIGN** – free unlimited time version intended for system designers and for those preparing technical documentation: marking of cables, wires, connectors and electrical components. This version enables the design of even the most complex descriptions. It allows for any configuration of the imported data, it is equipped with an advanced editor, and a variety of formatting features
- + **DESIGN AND PRINT** – version with all the features of the design, enriched with the ability to print. This version allows to print names on multiple devices and different profiles at the same time, while creating another documents. DESIGN AND PRINT is a licensed version of the Application, which operates thanks to renewable annual subscription.

+ ADVANTAGES

+ MDIW - MARKING DATA IMPORT WIZARD

Create your own projects by selecting the data important to you, out of the hundreds of parameters within the software. Add your own unique descriptions, symbols or numbers. You can also design the appearance of each marker during the data import. Automatically and easily import data from a variety of sources, including design programs such as SEE Electrical or Eplan

+ VD - VISUAL DESIGN

Never again will you have to print a test marker to see what your work will look like. Thanks to the Promark Creator, you can be sure that the markers after printing, will look the same as they do on your computer screen.

+ DP - DESIGN AND PRINT

You can print one project, and start building the next one without having to wait for completion of the printout.

+ MP - MULTI PRINTING

The program allows you to simultaneously print several projects on multiple devices. This means that you can produce markers for different diameters of cables, or electrical components at the same time, without having to change the media.

+ VP - VIRTUAL PRINTING

You do not have a printer? It doesn't matter! Any project that you prepare can be printed directly on the PARTEX production line! The completed markers will be sent to you immediately after printing.

+ DSS - DESIGN, SAVE AND SEND

Create projects in one department and print them in another departments or even on site - wherever there is a dedicated printer.

+ INFORMATION

Promark Creator GO is an app which unleashes a world of new potential for users with an active Promark Creator license. The app can manage paired marker printers and run marker printing anytime, anywhere.

+ SYSTEM REQUIREMENTS

Minimum system version:
Android 9.0 / iOS 13

+ FEATURES

The application features many convenient options to optimise the marker legend printing process. PC GO is integrated with the Partex cloud for the instant and simple downloading of files developed in Promark Creator software. Connecting the app to a marker printer allows you to read the current status of the device (Active, Standby, Preheating), the colour, length left, and current consumption of the ribbon currently installed, and the power operating mode (mains or optional batteries).

The legend display of the selected marker helps you to decide whether the printing run should go ahead or not. All this is possible from anywhere, using a mobile device paired with the marker printer(s) over Bluetooth.
